## NON-HAZARDOUS PRODUCT CERTIFICATE

This is to certify that all the BioGenex products listed below contain no hazardous material at a reportable concentration according to U.S. 29 CFR 1910.1200, OSHA Hazard Communication Standard and EC Directive 91/155/EC.

Some product(s) or component(s) of a kit product may contain sodium azide, if indicated below, at concentrations of less than 0.1%. Sodium azide is not classified as a hazardous chemical at the product concentrations. However, toxicity information regarding sodium azide at product concentrations has not been thoroughly investigated. For more information, a Material Safety Data Sheet for sodium azide in pure form is available upon request.
