**EZ-Retriever® System**  
All-in-One All-at-Once

- Dewax, rehydration, and antigen retrieval  
- Approx 100 slides in under 30 min  
- Superheating fluid: No boils and spills

- Ultraclean intense stain  
- Antigen, nucleic acid and decal retrieval
Antigen Retrieval, invented by BioGenex, is an effective way of unmasking antigenic epitopes on the surface of formalin-fixed, paraffin-embedded tissue sections using microwave heating. The Antigen Retrieval technique breaks the formalin induced cross-linking bonds between epitopes and unrelated proteins, allowing better penetration of antibody and accessibility of epitopes. Covered by exclusive patents issued to BioGenex, this method has been practiced in laboratories throughout the world.

*80 µl/test for Xmatrix Elite/Ultra, 70 µl/test for Xmatrix Infinity

Results with EZ-AR Elegance series

- Gastrin on Stomach
- RCC-26
- Laminin on Lung
- CK5+14 on Prostate
- BCL6 on Tonsil
- CA125 on Ovarian Carcinoma
- CD5 on Lymph Node
- E-Cadherin on Breast Carcinoma
